

# NEW flexiFED option range

Flexible core benefit bundles to suit every stage of life

## flexiFED 1 Young singles

For young people who are single, in a relationship or married.

- Access to a MediVault**  
Most people at this life stage prefer hospital plans, but hospital plans have no day-to-day benefits. flexiFED 1 can be like a hospital plan: if you don't use the MediVault you don't pay for it, but should you need it you don't have to rely on family or your bank for a loan. You just access your MediVault and pay it back interest-free.
- Unlimited nominated network GP consults from core benefit bundle** after day-to-day claims have reached the Benefit Maximiser threshold level.
- Female contraception** paid from the core benefit bundle.
- Unlimited accident and emergency treatment** at any private hospital.
- Specialised radiology** for that fall from your MTB.
- Unlimited private hospital cover for planned procedures** at network hospitals (or the smaller network depending on your choice).
- Trauma treatment in a casualty ward paid from the core benefit bundle** for sports or hazardous pursuit injuries.
- Upgrades within 30 days of a life-changing event**, such as pregnancy or the diagnosis of a dread disease.
