## SERVICES

The service we offer is valuable to all our clients as it allows you to focus on your core business whilst utilising our expertise in these areas through continued support and sustainable initiatives.

### On-Site Document Verification

A Broad-Based rating is an in-depth process and an On-Site Verification of the evidence submitted for each one of the elements is required to achieve the maximum amount of points possible. The end result of this process is a B-BBEE Verification Certificate issued by Honeycomb that can then also be used by the measured entity when tendering for government business or other procurement purposes.

### Pre-Rating Assessment

A pre-rating assessment is conducted on all of the evidence collated by the client and is verified by Honeycomb through an on-site or remote visit.

The result of this exercise is a B-BBEE scorecard, indicating the points received for each element as well as the B-BBEE contribution status. This exercise is useful for companies to determine their readiness for an on-site BEE verification.

Honeycomb is confident that we can provide our clients with a hassle-free service, whether your company is an SME, a Listed Entity, or a State-Owned Entity. Our directors and staff are highly qualified in complex Ownership Structures and can offer an Ownership Assessment, Ownership Verification, as well as opinions on current or future transactions to ensure compliance for all companies, including Public Companies.
