

8085

Complete Flexibility

- + Available from CHEP service centres throughout Southern Africa.
- + No minimum quantity or period of hire restrictions.
- + Ideal for storage and distribution of small and high value goods.
- + Well suited for industrial and office moves where short-term hire and easy availability make economical good sense.

Innovative Design

- + Manufactured from polypropylene plastic.
- + Lightweight (4 kg) for ease of handling and exceptionally robust, with a capacity of 90 liters / 30 kg.
- + Crushproof, providing enhanced product protection.
- + Removable, hinged lid allows for nesting of units for increased space utilisation in storage or during transportation.
- + Sealable for increased security.

Pallet Compatibility

- + Compatible with the 1000 x 1200 Block 4-way entry and 1000 x 1200 Bearer 2-way entry pallets.

Environmentally Friendly

- + A practical, cost effective alternative to the cardboard box.
- + Eliminates disposable packaging.
- + Recyclable. Eliminates waste from the system.
