## GLOBAL POOLING SERVICES...

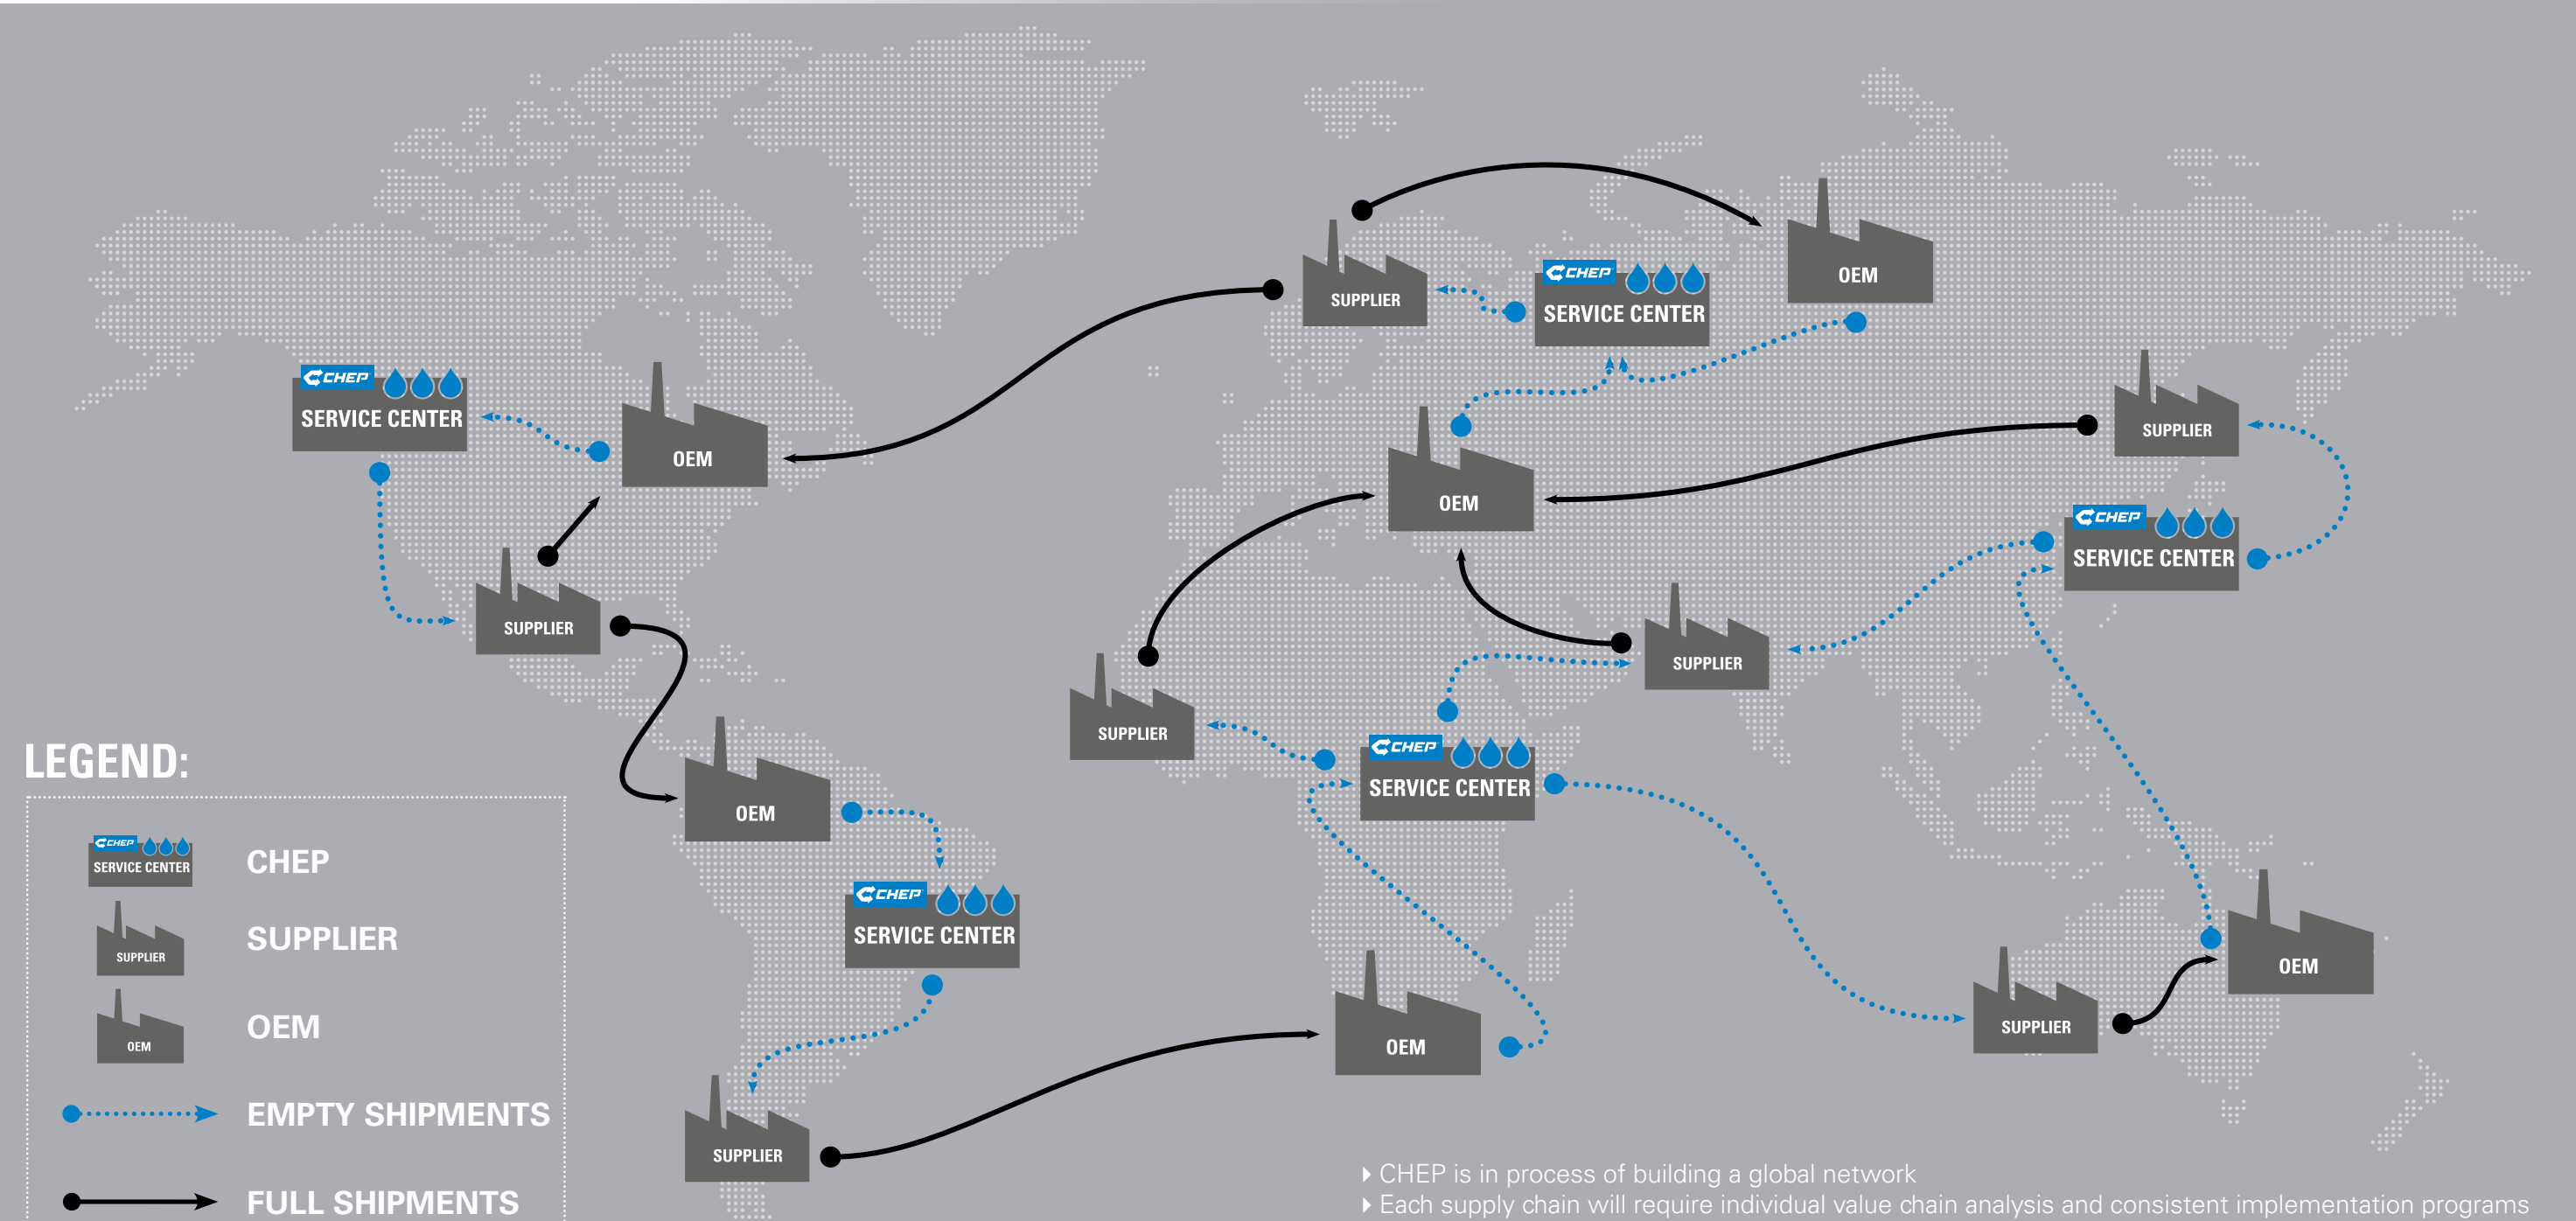

An efficient and cost-effective supply chain is a competitive advantage. By outsourcing the complete container management process and sharing standardised containers within CHEP's pooling network, companies with global operations save time, money and the hassle of managing one-way packaging or their own pool of containers. Your supply chain will benefit from:

- Improved operational efficiency
- A user-friendly online order system that allows for just-in-time delivery of containers
- Clean containers delivered at the right time and the right place to meet production demands
- Savings in terms of storage, maintenance and transport
- The removal of any worries about procurement, storage, maintenance, transport and handling
- Enables organizations to focus on their core business

CHEP brings decades of expertise as a global pooled-asset leader with more than 350 million containers, crates, and pallets managed for our customer's supply chains across the world every day. It is what we do. It is all we do.

## ...HELPING YOU DRIVE COST EFFICIENCY WITHIN YOUR SUPPLY CHAIN.

## KEY BENEFITS AND PRODUCT FEATURES

The IcoQube is a first-class packaging solution for intercontinental transport. It comes in four sizes specifically designed to maximize sea container capacity, therefore increasing component volume delivery and saving transport costs.

### How does it benefit your supply chain?

- ROBUST – strong and lightweight construction
- LEAN – fit for the production line
- EASE OF HANDLING – on four-way entry
- OPTIMUM USE OF CONTAINER CAPACITY – due to inner volume & sea container
- STACKABLE – with best-in-class foldable ratio
- RECYCLABLE – and moisture-resistant

Optimised for use in both 20'/40' standard and 40' high cube sea containers

### LID FEATURES

- > Nestable
- > Strapping able to be used to secure the pack
- > Dual latching
- > Latch engagement indicator
- > Safe forklift entry markings
- > Forklift pallet separator feature
- > Sleeve containment feature

### SLEEVE FEATURES

- > Foldable
- > Locks into the pallet and cover
- > Velcro tabs for door to sit flush
- > One-piece component
- > Label placard on all four sides
- > Internal fill Line
- > Date, time, material code

### PALLET FEATURES

- > In-built, easy-to-use sleeve locking mechanism
- > Strapping able to be used to secure the pack
- > Lock safety sight recess
- > Pallets latch into each other when stacked

## DIMENSIONS AND SPECIFICATIONS

The IcoQube helps to protect the environment by reducing the number of shipments and therefore reducing carbon emissions.

Our IcoQube is a large, foldable container with a 9.5:1 fold ratio and available in four sizes measuring 1145 x 980 x 1107, 1145 x 980 x 830, 1145 x 980 x 763 and 980 x 770 x 763 millimeters. The IcoQube has a four-way access system for forklift trucks, two folding lids for simple filling and emptying and is RFID compatible. You can benefit from the new worldwide CHEP service, not only due to its enormous flexibility and availability, but also because of the significant reduction in packaging waste.
